

JOB POSTING

Role: Journeyman Cabinet Maker
Reporting to: Shop Foreman
Department: Shop
Application Deadline: September 30th, 2021

Since 1977 Gem Cabinets has been meeting the cabinetry needs of homeowners in Edmonton and surrounding areas, and now Gem is growing again! As a locally owned and operated family business Gem prides itself on its culture of taking care of its people. Whether that is our customers that we work hard for every day, or our employees that make what we do possible, people are at the center of everything we do. As part of our recent growth, we are looking to expand our dynamic team, and we are looking for someone with a particular set of skills.

The Cabinet Maker is attentive and agile to oversee the creation of cabinetry from start to finish. The Cabinet Maker will be responsible for selecting the materials, constructing the cabinets, and then applying appropriate finishes. Responsible for fabricating, modifying, and repairing items needed for the completion of projects as well as setting up and maintaining various tools while adhering to strict quality and safety standards.

The Cabinet Maker will work in a fast-paced but casual environment and play a supporting role in ensuring customer satisfaction by producing quality work in an efficient manner.

KEY RESPONSIBILITIES

- Operating woodworking machines and using hand tools to cut, shape and form wood
- Selecting the appropriate materials, fittings, and tools for each task
- Must plan the most effective approach to ensure that each project completed is on time
- Creating standard and custom components of cabinets
- Responsible for inspecting each piece to ensure completion is accurate, necessary finishes are applied and meets quality standards
- Preparing and interpreting drawings
- Shop are clean, organized and safe

KNOWLEDGE & SKILLS REQUIRED

- High school diploma, GED, or equivalent
- Completion of a training program or apprenticeship

- Min 3 years experience as a Cabinet Maker
- Ability to perform math; read technical information, analyze situations to define issues and draw conclusions
- Thorough knowledge of the standard methods, equipment, materials, tools and practices of the cabinet making trade
- Proficient in planning and managing projects
- Flexibility is required to work with others and operate equipment using a variety of processes
- Ability to work with a wide range of individuals
- Performs consistently under pressure
- Must be focused and attentive to details
- Must be able to function with interruptions and deadlines
- Ability to prepare and maintain accurate records
- Ability to work both independently and as part of a team
- Is able to read, interpret and compose work orders
- Physical fitness and the ability to lift 80lbs
